About

I am Piyush Kumar Gupta, a Data Science Engineering student with hands-on experience in machine learning, predictive analytics, SQL, and data visualization. Skilled in Python, PySpark, Tableau, and statistical analysis with experience building data-driven solutions using NLP, computer vision, and business analytics techniques. Strong ability to analyze datasets, generate actionable insights, and develop scalable analytical solutions to solve real-world business problems.

Education

B.Tech in CSE (Data Science), Noida Institute of Engineering and Technology - 8.05/10.0	2022 – 2026
Senior Secondary, Jai Gurudev Raj Public School - 81.6%	2020 – 2021
High School, Jai Gurudev Raj Public School - 77.8%	2018 – 2019

Experience

Data Scientist (Trainee) MYANATOMY INTEGRATION	Aug 2025 - Oct 2025
--	---------------------

- Gained hands-on experience in NLP, Deep Learning, Machine Learning, and MLOps while working on real-time projects, focusing on model development, deployment, and learning modern data science tools for future growth

Artificial Intelligence and Machine Learning Intern YBI Foundation	Aug 2023 – Sep 2023
--	---------------------

- Learned AI/ML fundamentals: supervised, unsupervised, and deep learning. Performed data cleaning and data visualization to prepare and analyze real-world datasets. Built, trained, and tested machine learning models to evaluate performance and generate insights.

Projects

COVID-19 Data Visualization Dashboard	Project Link ✉
--	--

- Developed an interactive Tableau dashboard to analyze and visualize COVID-19 trends across regions using publicly available datasets.
- Performed data cleaning, preprocessing, and exploratory data analysis to identify patterns in confirmed cases, recoveries, and fatalities.
- Designed dynamic visualizations and KPI dashboards to support data-driven insights and trend monitoring.
- **Tools:** Tableau, SQL, Excel, Python, Pandas, Data Visualization.

Sign Language Detection	Project Link ✉
--------------------------------	--

- Trained a CNN model for real-time sign language recognition using MediaPipe hand tracking.
- Created a custom dataset of 2600+ images to improve accuracy and generalization.
- Implemented live webcam-based gesture prediction and visualization system.
- **Tools:** Python, TensorFlow, Keras, MediaPipe, OpenCV, NumPy, Pandas.

Mood Tracker Detection Web Application	Project Link ✉
---	--

- Developed a web app to track and analyze user mood patterns using ML techniques.
- Implemented data visualization dashboards for weekly and monthly trends.
- Applied NLP-based sentiment analysis to enhance mood prediction.
- **Tools:** HTML, CSS, JavaScript, Flask, Machine Learning, Matplotlib.

Sales Prediction Analysis	Project Link ✉
----------------------------------	--

- Built a machine learning model to predict future sales using historical data.
- Performed data preprocessing, feature engineering, and exploratory data analysis (EDA).
- Trained and evaluated regression models to improve sales forecasting accuracy.
- **Tools:** Python, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn.

Hackathon and Events

GeeksforGeeks Hackfest 2024 (Hackathon)

Project Link [🔗](#)

- Secured 4th position by building a CNN-based deep learning model for pneumonia detection with high diagnostic accuracy.

Technical Lead – NIET GenAI Club

- Served as Technical Lead, organizing and managing college events focused on emerging Generative AI technologies, cloud computing, and open-source collaboration while promoting hands-on learning and innovation.

Technologies

Languages: Python, SQL, R, Java

Data Analytics: Pandas, NumPy, Tableau, Matplotlib, Data Visualization, Statistical Analysis,

Machine Learning: Scikit-learn, TensorFlow, Keras, NLP, Predictive Modeling, OpenCV

Big Data Technologies: Apache Spark, PySpark

Frameworks: Flask, Django, REST APIs

Databases: MySQL, MongoDB

Cloud/Tools: GCP, Docker, Git, GitHub, Google Colab, VS Code

Fundamentals: DBMS, OOPs, Operating Systems, Networking, DSA, CI/CD, A/B Testing

Certifications

Data Scientist from NCET PLUS (score 87.15 percent) – **MyAnatomy**

Cisco Certified Network Associate (CCNA) – **CISCO**

Human-Centered Design for Inclusive Innovation – **University of Toronto (via Coursera)**

Building Machine Learning Systems with TensorFlow – **Infosys Springboard**

Data Analysis with Python – **IBM (via Coursera)**
